

Recommended Coaching Supervisors

Outline and Introduction:

The Coaching Supervisors on this list have been carefully selected for their experience as coaches and coaching supervisors, and their thorough knowledge of the CSA Diploma in Supervision programme. Every one of these supervisors can accompany you on this course, and provide the supervision required.

Each Supervisor has written a short introduction about 'who they are' and 'how they supervise'. After reading the information, we strongly encourage you to trust your intuition in choosing the supervisor for you. You may wish to contact one or two (and no more than 3) supervisors to arrange a short conversation to confirm your intuitive choice. Supervisors will offer around 20 – 30 minute space for connection.

NB Students must ensure that ALL placement hours are supervised. This means you may begin your own supervision ahead of the beginning of your placement hours, or you may begin as you complete the first one or two placement hours. However, students should be aware that supervision needs to commence in line with placement hours, and be continued, on a monthly basis, throughout the entire placement...even if this means contracting for more than 8 sessions with your supervisor. Placement hours undertaken outside of an on-going supervision arrangement may need to be repeated.

Click on the links in the Hub to view the Supervisor's profile. The list gives the general geographical location of the Supervisors, you may wish to consider this and the impact of time zone differences:
